MMRF_1686_1_BM – Chromosome 3

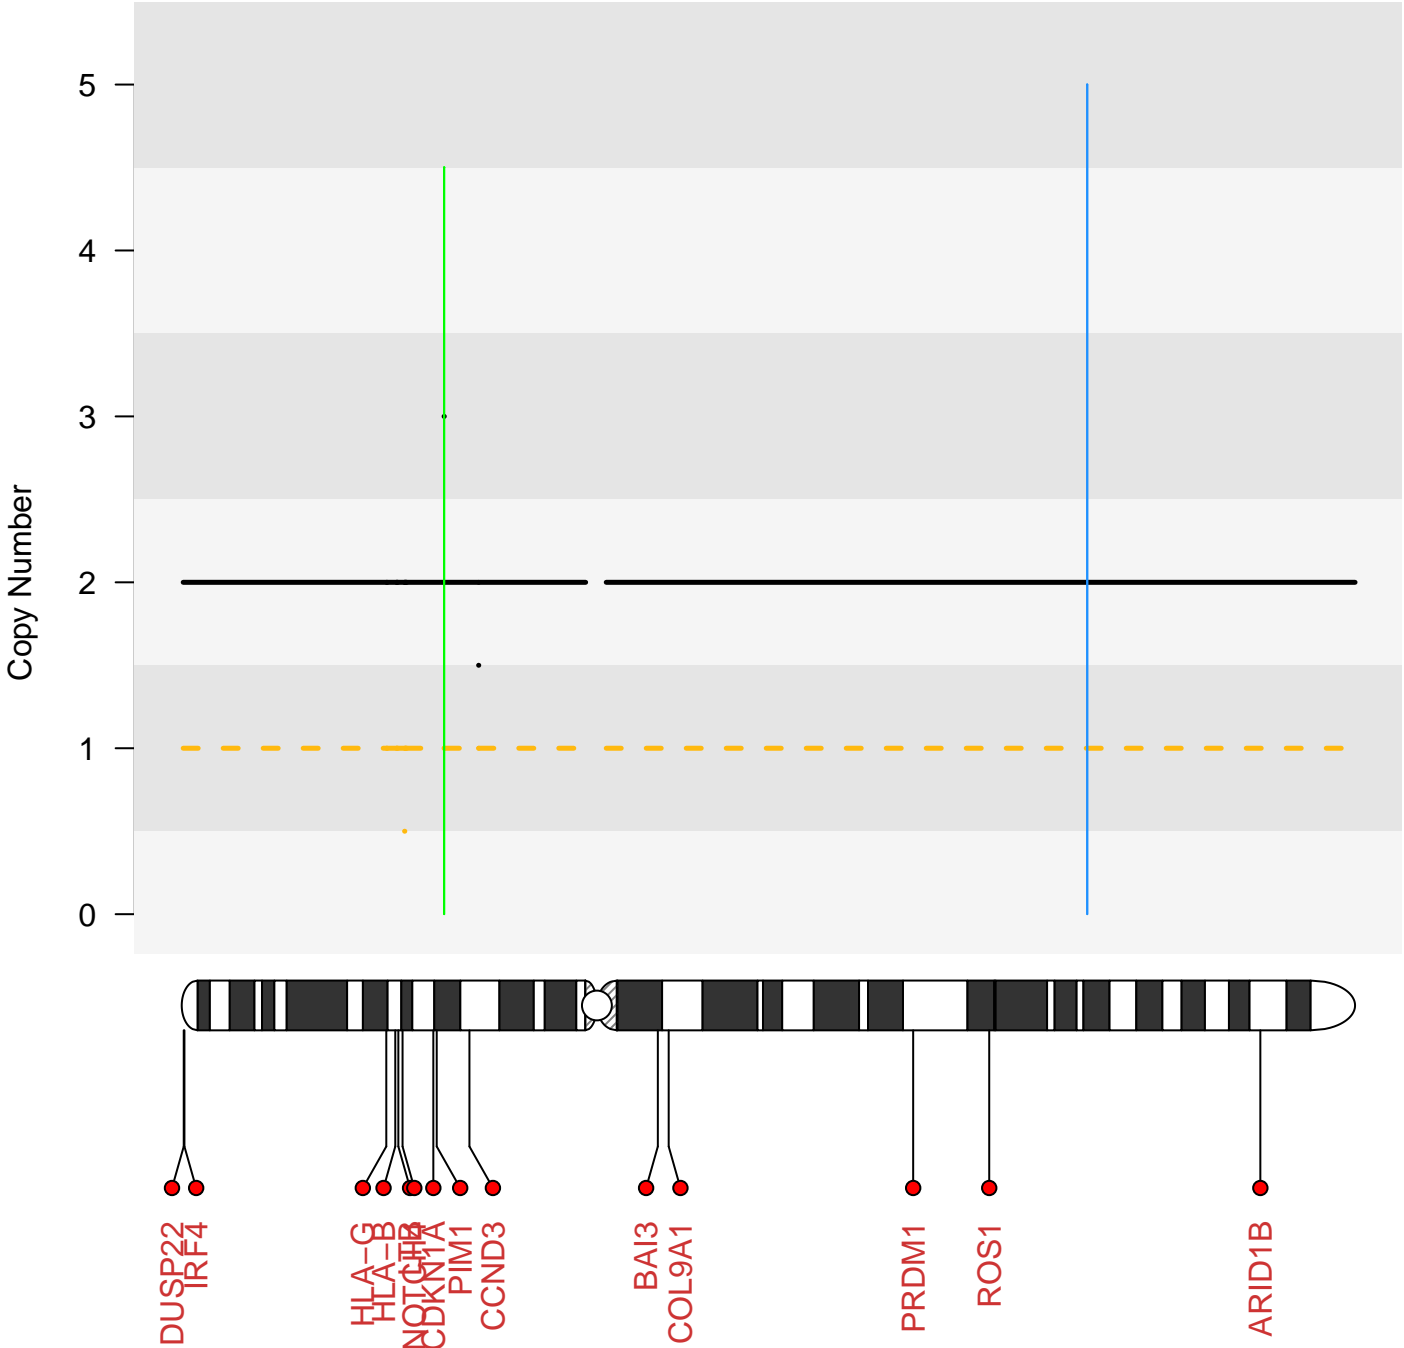

The diagram shows a road with a dashed yellow center line and solid black edge lines. Above the road, there is a grey shaded area containing two black dots. Below the road, there is another grey shaded area containing two black dots. A horizontal line segment connects the two dots in the upper shaded area, passing over the road. Another horizontal line segment connects the two dots in the lower shaded area, passing under the road. The road itself is represented by a white area between two solid black lines, with a dashed yellow line in the center.
